

What We've Been Up To

- Responding to antisemitism, especially in the form of anti-Zionism, as it emerges in our culture
- Envisioning, creating, and launching new programs and fellowships, starting new chapters, and hosting timely events with incredible speakers
- Sharing our message and our mission with audiences nationwide

Just want to say thank you! I'm newer to engaging with this project and, as a non-Jewish person, the resources have been helpful. Still nervous talking about Zionism among my fellow progressives, but hopefully we can change their minds on Israel!

By the Numbers

So far this year, Zioness has:

- Generated over **600 organizing sign-ups**, representing participation from 28 of states
- Held over **90 1:1 meetings** with Zionesses from 17 states to engage them in our organizing work
- Hosted **19 organizing events** and **9 partnership events**
- Offered **several trainings**, including *How to Talk Like a Zioness* and *Leading from the Left: Understanding and Confronting Antisemitism for Local and State Elected Leaders*

And that's just a small sample of what we do each day at Zioness!

[This training was] phenomenal! These issues demand time and attention. I want more trainings! I feel like this information will be so helpful as we move through the campaign.

- Carisa Perez (Chief of Staff for Max Tuchman, Miami, FL)

Where We're Going

- Building and strengthening our progressive partnerships to normalize Zionism in social justice spaces
- Reaching wider audiences with our message to drive impact across the progressive movement
- Lifting up and centering the diversity within our community through intentional programming and our new Zahav Fellowship for Black Jewish Zionists
- Innovating with new programs and trainings to meet the growing need for our work

Thank you so much for everything you do. It can be so lonely and frustrating being a Zionist and a progressive in this country. Thank you for being my voice and helping to educate others.
